VISION

To be a Premier Audiovisual, Information Technology & Security Solutions Provider in Malaysia.

MISSION

Designing, Building, Intergrating and Supporting all aspects of Technology Solutions which are committed to complying and exceeding customer expectations.

CORE VALUE

T R I P L E

TRUST

Act with integrity at all time seeing sincere, honest, reliable and ethical in all we do.

RESPECT

We are inclusive, resolve differences openly and quickly, respect and value the role we all play in our shared vision.

INNOVATION

Embrace new thinking and technology to create greater opportunities.

PASSION

Being excited and enthusiastic about what we do.

LEARNING

We take the initiative & ownership of problem solving, continuously improving our skills, knowledge and ability.

EXCELLENCE

Exceeding all expectations and excelling in everything we do.

WE DO DESIGN & BUILD

CONSULTING

We do listen and understand your technology needs at first and we will recommend the appropriate solutions that comprise the system, a timeframe for completion, and an estimate of the costs involved.

DESIGN & DETAIL DRAWING

We do take consideration and coordination of all elements such as interior and architectural requirements, electrical, sound and acoustic considerations, lighting, and other building elements, even furniture to present your superior greatest settings.

MANAGEMENT & INSTALLATION

We do equipment and material purchase, custom fabrication and assembly, programming, pre-installation testing, on-site installation, and post-installation testing.

DELIVERING OF SOLUTION

Upon completion and client approval, comprehensive training for the users of the system is scheduled. Our goal is to guarantee your complete satisfaction and comfort in using the system.
